DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In claim 5, change \square m to μ m. The limitation should read --from 10 μ m to 150 μ m.--

2. The following is an examiner's statement of reasons for allowance: The references of the Prior Art of Record fail to teach or suggest either alone or in obvious combination the limitations as set forth in claims 1 and 12, and specifically comprising the limitation of *the first piezoelectric layer has a first thickness equal to a distance between the two electrodes of the first pair, and said at least one second piezoelectric layer has a second thickness which is equal to a distance between the two electrodes of the second pair and is greater than the first thickness.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
